Experience

Full Stack Developer Intern

May 2026 – Sep 2026

MyLearning Plus Pvt. Ltd.

Hyderabad, India

- Developed responsive React.js interfaces and integrated them with Node.js, Express.js, MySQL, and GraphQL services for the Rizee Educational Platform, following SDLC practices from requirements through testing.
- Built and maintained RESTful and GraphQL APIs for student management, examinations, attendance, and academic performance; implemented JWT authentication and RBAC for secure, role-specific access.
- Performed manual testing of features and user workflows, reported defects, and fixed frontend and backend bugs to improve application quality and stability.
- Tested APIs with Postman, troubleshooted request/response and data issues, and resolved them through debugging, unit testing, and cross-browser validation.
- Used Git/GitHub (branching, pull requests, code reviews), maintained technical documentation for features and APIs, and worked in Agile/Scrum sprints and daily stand-ups.

Projects

Rizee Educational Platform (Internship Project)

React.js, Node.js, Express.js, MySQL, GraphQL

- Contributed to a full-stack student and academic management platform, building responsive React.js workflows for examinations, attendance, and performance tracking.
- Integrated REST and GraphQL APIs with the frontend, supported role-based access, and fixed issues found through manual and Postman testing.
- Followed a modular, reusable component structure and documented API endpoints so teammates could integrate and test features quickly.

CareerPilot – AI Career Intelligence Platform (In Development)

React.js, Node.js, Express.js, MySQL, REST APIs, JWT, AI

- Developing an AI-powered platform that matches resumes to job descriptions, identifies skill gaps, and delivers career recommendations and mock interview feedback.
- Building React.js interfaces and secure REST APIs (Node.js, Express.js, MySQL) for authentication, resume management, career analysis, and interview workflows; API testing with Postman and code managed on GitHub.
- Designing a MySQL schema for users, resumes, job descriptions, and analysis results, with JWT-protected routes and structured error handling across API endpoints.

Shop-Flex – E-Commerce Application

React.js, Node.js, Express.js, MongoDB

- Built a MERN e-commerce and inventory app covering users, categories, products, and orders, with REST APIs, JWT authentication, role-based access, CRUD, Multer image uploads, and Mongoose models.
- Connected the React.js frontend using Axios, Hooks, and React Router; performed manual, unit, and API testing to find and fix issues.
- Implemented separate user and admin flows for managing categories, products, and orders, with protected routes and input validation on forms and APIs.
